

Dear Supporter,

Help Stop Soldier Suicide collect 263,000 signatures on an initiative to address Veteran Suicide, the most important issue facing our Veterans and their families.

Connected Warriors, Inc. is joining veteran organizations and supporters across the country to raise awareness about this petition and we are asking everyone sign and pass along this message. Connected Warriors, Inc. is also proud to be a part of this program, mindfulness stage, that will assist future veterans exiting active military to successfully reintegrate in back into society and use their skills gained during rigorous training on active duty.

Stop Soldier Suicide is petitioning our elected officials to develop a comprehensive program to better prepare transitioning Service Members for life after the military. This program - the Reverse Boot Camp - will help Service Members optimize their health, unleash career potential, and discover the empowerment and post-military quality of life they fought to protect. To support this program, I would ask you to do three, simple things:

1. Sign the petition here: <https://www.change.org/p/stop-soldier-suicide-the-reverse-boot-camp>
2. You can read the position paper for the Reverse Boot Camp here: <http://stopsoldiersuicide.org/wp-content/uploads/Reverse-Boot-Camp-White-Paper.pdf>
3. Share the petition and its goal for 263,000 signatures through email and social media with every contact you have.

The number 263,000 represents an estimate of every Veteran life lost to suicide over a 36-year period using the 2014 suicide rate included in the most recent VA Suicide Data Report. These numbers are unacceptable. One suicide of a Warrior is too many. With your help, we will achieve this goal and begin working on important solutions like the Reverse Boot Camp to end this problem.

Thank you for helping end this tragedy with your signature,

Gina Franano  
Executive Director  
Connected Warriors, Inc.

Thank you so very much for uniting with us. WE WILL DO THIS TOGETHER!
